Beza Tezera

Santa Monica, CA, 90405 | 3236167727 | Tezera1beza@gmail.com | LinkedIn | Github | Website

EDUCATION

University of California, Riverside | *Riverside, CA*
Bachelor of Science
Major in Computer Science
Cumulative GPA: 3.70/4.0 | Dean's List (2022-2025) | Chancellor's List (2024, 2025)
Certifications: Claude 101, AI Fluency, Google Cloud Fundamentals, Scrum Fundamentals
Leadership: East African Student Association - **Co-President** | National Society of Black Engineers - **Mentor** | National Society of Leadership and Success - **IT Coordinator**

TECHNICAL SKILLS

Programming: Python (pandas, NumPy, scikit-learn, NLTK, spaCy), SQL (MySQL, PostgreSQL), JavaScript, HTML/CSS
AI & LLMs: Claude, Gemini API, Prompt Engineering, NLP, Sentiment Analysis, Topic Modeling (LDA), Feature Engineering
Data & Tools: Tableau, Looker Studio, Google Analytics, Advanced Excel, Git/GitHub, Google Cloud, Agile/Scrum

WORK EXPERIENCE

Consultant, ESG & Sustainability Analyst (Intern) | *Hellman and Friedman, Remote* July 2026 - Present

- Built an automated peer-benchmarking tool using Claude to compare portfolio companies against industry peers, reducing manual reporting time by more than 50% and giving the team faster, more consistent comparative insights.
- Developed a trend analysis that extends the benchmarking tool to track portfolio company ESG performance over time.
- Presented findings and analytical frameworks evaluating portfolio company performance to the head of sustainability to inform investment team discussions.

Coding Coach | *theCoderSchool, Los Angeles, CA* April 2026 - July 2026

- Delivered one-on-one coding sessions for K-12 students in Scratch, Python, HTML, CSS and JavaScript, adapting instruction to each student's pace and learning style.
- Guided students through project-based learning using a Socratic approach to foster independent problem-solving over direct instructions.
- Translated complex technical concepts clearly for non-technical audiences including students, parents, and school staff across multiple age groups and learning levels.

Data Analyst Intern | *EcoServants, Remote* Nov. 2025 - Mar. 2026

- Built a dashboard tracking KPIs and environmental impact metrics for a sustainability-focused nonprofit, supporting data-driven community engagement across distributed field sites.
- Analyzed Google Analytics and Google Ads data (traffic, conversion rate, CTR, CPC) to identify friction points and recommended headline changes that improved engagement and reduced cost-per-click.
- Designed and implemented database schema enhancements, including 2+ new SQL tables with foreign key constraints, to support distributed community node architecture.

Research Assistant Intern | *UCLA, Los Angeles, CA* June 2024 - Aug. 2024

- Applied machine learning techniques (e.g. K-Means clustering) to analyze drug phenotype pathways and generate binary feature matrices for pattern recognition.
- Managed and analyzed 100,000+ record datasets using Python and SQL to build structured pipelines and ensure data integrity and reproducible insights.
- Performed quality assurance reviews including data validation, cleaning, and control procedures, improving data accuracy by 15%, and documented SOPs for data collection and quality control.
- Built interactive Tableau dashboards, saving 10+ hours per week of manual reporting by enabling interactive and reproducible analytics for research staff.

PROJECTS

Medhanealem School Alumni Association Website | *React, Vite, React Router, Claud***e**

- Building a multi-page fundraising site for a school alumni nonprofit in Ethiopia and sharing a live preview with the client for feedback.

Job Legitimacy Checker | React, Gemini API

- Built an AI tool that scores job postings 1-10 for legitimacy, using prompts that return structured JSON with category breakdowns, in a simple interface for non-technical users.

Amazon Customer Review & Sentiment Analysis | *Python, NLP*

- Built an end-to-end machine learning pipeline on 1,000+ reviews, using regression models and VADER sentiment analysis to predict ratings with 77% accuracy, and LDA topic modeling to surface 5 distinct customer discussion themes.
