EDUCATION

University of California, Riverside

Riverside, CA

June 2025

Bachelor of Science

Major in Computer Science

Cumulative GPA: 3.70/4.0; Dean's List 2022-2025; Chancellor's List 2024 2025

Relevant Coursework: Database Management, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Certifications: Google Cloud Fundamentals, Kubernetes Basics, The Basics of Scrum, FinOps

Awards: UCR Programming Contest - Outstanding Female Participant

TECHNICAL SKILLS

Financial & Data Analysis: Advanced Excel (Pivot tables, VLOOKUP, scenario modeling), Tableau (KPIs, Variance dashboards), SQL (PostgreSQL, MySQL, NoSQL), Python (Pandas, NumPy)

Forecasting & Reporting: Trend analysis, data reconciliation, cost tracking, performance metrics

Other: Agile/Scrum, Technical documentation, Google Cloud, Kubernetes, PowerPoint, Matplotlib

WORK EXPERIENCE

Undergraduate Research Intern

UCLA, Los Angeles, CA

June 2024 - August 2024

- Conducted data validation, and reconciliation of large datasets using Python, improving data accuracy by 15% for downstream analysis and reporting.
- Designed interactive Tableau dashboards, saving 10+ hours per week of manual reporting by enabling interactive and reproducible analytics for research staff.
- Applied machine learning techniques (e.g., K-Means clustering) to analyze drug phenotype pathways and generate binary feature matrices for pattern recognition.
- Authored detailed documentation and reports to support process transparency, auditability, and governance.
- Collaborated with cross-functional teams to ensure data quality compliance with research protocols and process standards.

PROJECTS

CollegeCompass - Web Application ([Github](#))

April 2025 - June 2025

- Designed and implemented automated validation and test coverage (80-100%) across API → cache → UI data flows, ensuring high reliability of user-facing analytics.
- Optimized performance by reducing API calls and introducing monitoring, improving system load times by 35% and minimizing downtime for users.
- Coordinated Agile sprints to support integrations and reconciliation of external API data sources (Foursquare).

ProjectHive - Project Management Platform ([Github](#))

September 2024 - February 2025

- Built a project management system with a PostgreSQL and C++ backend and HTML/CSS/JavaScript frontend under Agile methodology.
- Designed and implemented RESTful APIs to manage user and project data, ensuring secure, accurate, and high-performance data transactions
- Managed PostgreSQL database with pgAdmin, applying indexing and query optimization strategies to achieve 30% faster query performance and reliable reporting
- Developed efficient SQL queries and validation logic (referential integrity, duplicates, null checks) to support accurate analytics for active users and ongoing projects

LEADERSHIP

EAST AFRICAN STUDENT ASSOCIATION

September 2024- June 2025

Co-President

- Coordinated with members to successfully plan and execute high engagement cultural events with over 100 attendees
- Managed task delegation, meeting agendas, and progress tracking to make sure team milestones were met

NATIONAL SOCIETY OF BLACK ENGINEERS

September 2023 - June 2025

Mentor

- Supported first year students in adjusting to campus life, emphasizing academic and professional development

NATIONAL SOCIETY OF LEADERSHIP AND SUCCESS

September 2022 - June 2025

IT Coordinator

- Managed the chapter's technical operations, optimized social media analytics, and streamlined communication
